West Midlands Radiotherapy Clinical Protocol

Rare Penile Cancer

At the West Midlands Radiotherapy Expert Advisory Group (EAG) meeting held on 13th February 2026, all trusts providing radiotherapy in the West Midlands confirmed they were happy to use the UHB protocol for rare penile as the only provider in the region.

UHB has confirmed that they treat patients under the International Penile Advanced Cancer Trial (International Rare Cancer Initiative), known as the InPact trial using trial protocol final version 1.1 Dated: 2nd August 2016.
